Welcome to our 2026 catalogue

As we head into 2026, I'm really pleased to welcome you to our latest Dexam catalogue. Inside, you'll find the dependable bestsellers that continue to perform strongly for our retail partners, alongside carefully developed new products designed to bring freshness, relevance and repeat purchase to your ranges - all proudly marked with the Dexam heart.

At Dexam, we've been supplying kitchen and homeware since 1957, and while a great deal has changed over the decades, our approach has not. We believe in well-designed, functional products made from quality materials, created to be used every day and to last. For our customers, that means confidence in the range; for our retail partners, it means products that sell well, season after season.

Innovation continues to drive our product development. In this catalogue you'll see considered extensions to some of our most established collections, including new formats, refined finishes and updated colourways that reflect current trends while remaining commercially robust. Our Sintra collection remains a cornerstone of the Dexam offer, and for 2026 we're building on its success with further additions that retain the distinctive look and versatility that customers love.

Across cookware, tableware, textiles and kitchen accessories, we've focused on creating ranges that merchandise well in-store and online, with strong opening price points and the flexibility to buy most items as singles.

Sustainability remains a key consideration in everything we do. Our textile ranges continue to expand using recycled cotton off-cuts that would otherwise go to landfill, and we're consistently reviewing materials, packaging and product longevity across the business. We firmly believe that making products that last - and that customers don't need to replace frequently - is one of the most meaningful ways we can reduce environmental impact.

Licensed collections also remain an important part of the Dexam portfolio. The School of Wok brings an extensive range of functional items to help create the best Asian food possible. The cornerstone being our unique pre-seasoned woks that go from strength to strength, providing the consumer the quickest route to 'wok hei!'

Our ongoing partnership with the Royal Horticultural Society draws on the rich archive of the RHS Lindley Collections, bringing timeless botanical design to practical kitchen and homeware ranges that resonate strongly with consumers. Our iconic Vintage Kellogg's ranges bring a smile to your face and brightens any kitchen.

As ever, not everything we're working on for 2026 appears in these pages. Our development pipeline remains busy, and we look forward to sharing additional launches and updates with you throughout the year.

We'll be exhibiting again at key industry shows in 2026: Ambiente and INDX in February and Exclusively in June and would love to see you there. Our showroom, located in the heart of the South Downs National Park, is also available for appointments if you'd like to view the full collection in person or arrange a virtual tour.

Thank you for your continued support of Dexam. We truly value our retail partnerships and look forward to working closely with you throughout 2026 and beyond.

Bryony Dyer
Managing Director

Our principles

From the very beginning in 1957, Dexam has been guided by a clear set of principles that shape how we develop products, work with our partners, support our customers and run our business. As we move into 2026, these values continue to underpin everything we do.

Innovation

We design with purpose, believing great products start with function. Every development begins with a practical brief, shaped by real-life use and informed by decades of experience. Our focus is on practical innovation and improvements - whether that's refining materials, improving usability, enhancing performance or introducing new formats - ensuring innovation adds genuine value, not unnecessary complexity and without compromising on style.

Quality, Consistency and Reliability

Attention to detail matters. We take a considered approach to design, sourcing and manufacture to ensure our products meet high standards of performance and finish. Quality is never an afterthought. Consistency across ranges is key, giving customers confidence that Dexam products will deliver reliable results time after time.

Service and Relationships

We are famous for being 'Dexam'. We are a friendly company that is all about people. We aim to give the best service in the industry and get the best out of everything and everyone.

Sustainability

We are committed to making responsible choices that reduce our environmental impact. This includes designing products for long-term use, increasing the use of recycled and responsibly sourced materials, reducing waste and improving packaging where possible. Sustainability is an ongoing journey, and we continue to review and improve our practices as part of that commitment

Our partners

In addition to our Dexam branded products, we work with a number of brand partners through licensing and distributorships.

Quick dispatch

Our warehouse has recently been upgraded. Along with greater storage capacity it allows for speedy bay fill, order fulfilment and faster and more effective customer despatch. We can usually deliver within 48 hours of orders being placed.

dexam

For over 65 years, Dexam has delivered kitchenware that retailers trust and consumers love. Our comprehensive range of cookware, bakeware, kitchen tools, storage, and textiles combines practical design, durable quality, and contemporary style - giving retailers products that sell and consumers products they want.

Leading our lifestyle-led collections is Sintra, a hand-finished terracotta range inspired by the Mediterranean. Its warm colours, natural textures, and artisan details meet the growing consumer demand for authentic, stylish, and sustainable tabletop and serving solutions - helping retailers offer standout products that drive engagement and repeat purchase.

at the heart of your kitchen

Sintra: Seagrass

Sintra, Portugal, is a place of mystical gardens, century-old trees, historic taverns, and multicoloured hillside facades.

Our Sintra collection brings this charm to the home with terracotta, mango wood, recycled glass, seagrass and recycled cotton textiles for indoor and outdoor entertaining.

For 2026, the range is refreshed with a new Olive Green colourway and coordinates with our Love Colour textiles, giving retailers a stylish, contemporary, and saleable offer.

We've added some key serving and cooking pieces with even more innovations and colours to come, Sintra continues to deliver trend-led, high-quality pieces that meet consumer demand.

Sintra: Porto Terracotta

See pages 104-109 for matching Love Colour textiles

Our new terracotta collection is inspired by the architectural charm and narrow cobbled streets of Porto in Portugal.

Bring the allure of the city to your home and enjoy entertaining indoors or outdoors with this range of terracotta tableware and kitchen accessories.

Formed from pottery clay, terracotta vessels are known for retaining warmth, moisture, and nutrients well.

The hand finished stone coloured glaze on these products is bound to bring a calm and comforting feel to any kitchen.

Sintra: Blush Glass

See pages 104-109 for matching Love Colour textiles

The Sintra Glass 'Blush' Carafe, Tumbler, and Oil Drizzler are crafted from recycled glass in Spain, adding a soft, on-trend accent to the table.

Coordinating with the new Love-colour textiles, they extend the recycled glass and Sintra range, giving retailers a sustainable, high-quality, and saleable offer.

Terracotta is one of the oldest materials used to make cooking vessels. Formed from pottery clay, terracotta vessels can be used for slow cooking, stewing, baking and broiling because of its extraordinary properties of retaining warmth, moisture, and nutrients well.

Replicating traditional brick ovens and vessels of the past, they are all oven safe and should be hand washed.

An exquisite British made collection of superior knives. Made from the highest quality steel for sharpness and longevity.

The handles come from responsibly managed forests in North Yorkshire using wind damaged boughs. Each handle has its own personal grain.

Hand wash only.

Made in Sheffield.

We offer a blade engraving service for your customers.

To personalise a knife please call us on 01730 811811, or email sales@dexam.co.uk

dexam
at the heart of your kitchen

Supreme cookware is manufactured from 18/10 stainless steel with a 0.7mm thick body. Suitable for all types of hob, including induction with energy-efficient, 6mm impact-bonded aluminium, fully encapsulated, sandwich base.

Saucepans feature internal capacity markings, steam-vented lids and all-round pouring lip. They come with cast steel handles (5 different lengths) and lid knobs secured with rivets. PFOA-free non-stick coating. Oven safe to 300°C (572°F), except non-stick (oven safe to 230°C 440F), dishwasher safe.

Lifetime guarantee (2 years on non-stick coatings).

Christmas at Dexam

Dexam offers a festive Christmas range each year, featuring a coordinated selection of kitchen textiles, serving pieces, tableware, ceramics and seasonal accessories.

The Christmas range shown here reflects our current collection. A brand new Christmas design for 2026 is currently in development and will be revealed later in the year.

For early previews, launch timings or to discuss Christmas 2026 opportunities, please contact sales@dexam.co.uk or speak to your usual Dexam sales representative.

Celebrate your feline friends with this purrfect design featuring black & white cats on a blue background with a contrast blue spotted pattern.

Made with recycled cotton from offcuts which would have otherwise ended up in landfill. This means that we are reducing the water footprint associated with the growing and harvesting of virgin cotton.

Kindness is a simple way to help everyone. When we are kind to each other, it helps us to feel connected, which means we forge new friendships or deepen existing ones.

Research has shown that when we're kind, when someone is kind to us or even if we just witness kindness, our bodies release feel-good hormones which lift our mood and make us happy. Kindness isn't just a nice thing to do, but can help us improve our own mental health and wellbeing.

To celebrate this and champion mental health, we've developed this range of textiles that make fun gifts - guaranteed to put a smile on yours and everyone else's face!

100% ORGANIC COTTON YARN

Luxuriously soft organic cotton yarn, thick ply weave printed in a contemporary heart design. The natural muted hues add a touch of sophistication to bespoke kitchen interiors.

Made from organically grown cotton yarn which is kinder to the environment as it uses less water, reduces soil erosion and does not use hazardous manmade pesticides. It also benefits the farmers who can grow additional crops alongside the cotton and maintains the biodiversity of the soil.

Do you care what you wear, like the idea of bottles made into bags and plastic made into pinnies?

Our reusable bags and aprons are made from recycled plastic bottles via a process which turns the plastic into a durable and practical fabric called RPET (Recycled PolyEthylene Terephthalate).

The world's two biggest plastic pollution issues are single use plastic bags and plastic bottles. It takes at least 450 years for a single plastic bottle to decompose and billions of plastic bottles are sent to landfill all over the world every year.

The plastic bottles we use are collected from recycling sites. Ethical production is fundamental to the integrity of our products.

Shows how many bottles it takes to make each product

Textiles: Love Colour Terracotta, Blush and Sage

See pages 10 - 22 for co-ordinating Sintra collection

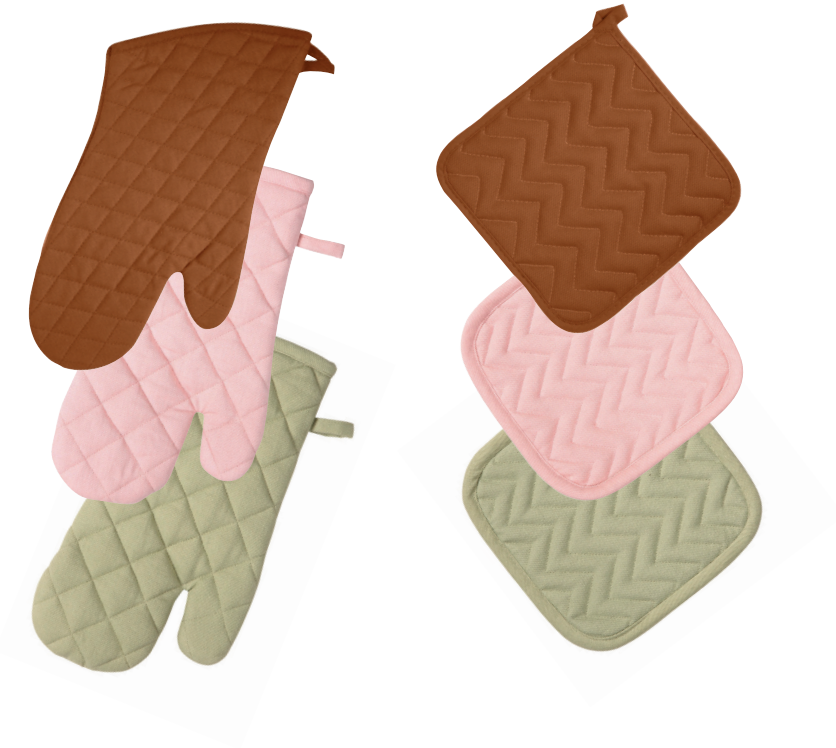

Love Colour remains the cornerstone of the Dexam textile collection, combining proven best-selling classics with carefully considered, trend-led updates.

For the new season, the range is refreshed with three key colours, **Terracotta**, **Blush** and **Sage**, offering a warm, contemporary palette that reflects current interior and lifestyle trends.

Developed in response to market insight and customer feedback, these shades sit seamlessly alongside our established core colours, enabling confident range building and flexible merchandising.

Across a broad selection of textiles, from aprons to tea towels, **Love Colour** continues to deliver quality, consistency and strong commercial appeal.

Textiles: Butchers Stripe

MADE IN ENGLAND

Rushbrooke's kitchen linens have been traditionally made in England since 1837.

Originally made for the butchers of Smithfield Market in London, the Butchers Stripe is now the choice of professional cooks around the world.

The discharge printed stripe cloth offers clean sharp lines with durable, bar-tacked stress points.

Designed to perform.

rhs

The Royal Horticultural Society (RHS) is the UK's leading gardening charity, founded in 1804. Their vision is a world where gardening is embraced as a way of life – a source of joy and fulfilment, building healthier lives, stronger communities, and thriving environments.

Taking inspiration from some of the thousands of botanical images held in the RHS' world-famous Lindley Collections, the RHS by Dexam collection ties in with Dexam's commitment towards a more sustainable world.

® The Royal Horticultural Society.
Trade marks of the Royal Horticultural Society (Registered Charity No 222879/SC038262) and used under licence from RHS Enterprises Limited.

RHS Hooker Fruit

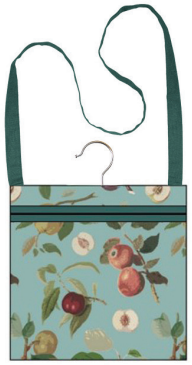

William Hooker (1779-1832) was the greatest fruit illustrator of his day. In 1815 the Horticultural Society of London hired Hooker to paint portraits of fruit grown in England to authenticate the names. More than 150 drawings form the collection known as Hooker's Fruits, recognised as the greatest fruit drawings of all time. These drawings are now in the RHS Lindley Library.

We celebrate some of Hooker's designs with our Hooker Fruit printed textile range in collaboration with the Royal Horticultural Society. The design features various apple, nectarine and plum varieties on a blue background with green trim.

The cottage garden is a distinct style that uses informal design, traditional materials, dense plantings, and a mixture of ornamental and edible plants. English in origin, it depends on grace and charm rather than grandeur and formal structure. This charming range is a nod to that and features many colourful floral prints on a muted background. The design will brighten up any kitchen and the range is available in an adult apron, set of 2 tea towels, double oven gloves and peg bag. Perfect for all garden and nature lovers.

The floral prints were inspired by the RHS's Lindley Collections which houses the world's finest collection of books and printed materials on gardening and outstanding collections of archives, photography and botanical art.

Our birds range is inspired by Cimelia Physica: figures of rare and curious birds, engraved & coloured, from the subjects themselves by John Frederick Miller; with descriptions by George Shaw. Published in 1796.

The birds and foliage were sourced directly from The Royal Horticultural Society Lindley Collections and have been adapted to provide a modern print with teal, pink and yellow birds and blue foilage. Each piece has a muted stone background and pink trim.

Gertrude Jekyll (1843–1932) laid the basis for modern garden design and is credited with popularising an informal, naturalistic look in counterpoint to the rigid, formal landscapes of the Victorian era. She created some 400 gardens in the UK, Europe and America: a remarkable output. Her influence on garden design is pervasive and persists to this day.

We wanted to celebrate her influence in our new organic cotton textile range in collaboration with the Royal Horticultural Society. The new range uses a tile pattern from the marble pavement of the Duomo in Milan. It is contrasted with a floral and leafy spray design, which is reproduced and repeated. Both were taken from Jekyll's 'Designs for Carving' scrap book, dated 1866-1911.

RHS Sunflower

Our Sunflower range features a bee print and iconic sunflower from Le Tournesol annuel [Helianthus annuus, common sunflower] Coloured engraved plate from Pierre Joseph Buchoz, in 1776. Both were sourced directly from The Royal Horticultural Society Lindley Collections.

Sunflowers, with their large, daisy-like flowers, are easy and fun to grow. They are great for wildlife, with plentiful pollen and nectar for bees and nutritious seeds for birds. They come in all sizes, with flowers in various colours, ideal for sunny summer borders or even containers, making it the perfect print to bring sunshine into our homes.

Our Benary Vegetables collection has been designed, using the unique vegetable prints produced by renowned horticulturist and botanist Ernst Benary (1819-1893).

Our beautiful vintage and colourful print is based on the chromolithograph plates of a variety of vegetables such as carrots, peas, beetroot, cabbages to name but a few. Looking good enough to eat, they are perfect for bringing colour in to your home space.

kelloggs

Over the last century Kellogg's has become a British breakfast favourite. More than 100 years ago, their founder, W.K. Kellogg, saw the promise in a single grain. Through his passion and commitment to nutrition, Kellogg's Corn Flakes® were made, and an industry was born.

Today nutrition continues to be the core of their business. And cereal is an integral part of how they can help to meet the nutritional needs of people all over the world. Their archive contains over one million pieces of artwork collected since the foundation of the company including iconic characters, cereal packaging and imagery and we are delighted these can live on today in new products.

VINTAGE Kellogg's™

school of wok

Our partnership with London Covent Garden's School of Wok is over 10 years old and goes from strength to strength. We have created a wonderful collection of woks, accessories and kitchen textiles to enable enthusiasts to practise the art of Asian cookery with excellence from the very start.

The addition of pre-seasoned woks has enabled truly authentic wok cooking to become easily accessible to all. From the outset we have imposed our exacting standards on each product within the collection, so that everything does what it should do, in the very best way.

For example, the woks all come with comfortable bamboo handles and the tools are created at the perfect angle for use in stir fries. The range is suitable for all hob types.

School of Wok by Dexam 12"/30cm Round Bottom Uncoated Carbon Steel Craft Wok

chasseur

We believe that there are some things which simply allow no compromise and, for us, French cast iron cookware is one.

Manufactured in the Ardennes region of France, Chasseur has been producing exquisite quality cookware for over a century, each piece double-enamelled and checked for quality by a skilled human being, not a robot. From the most gastronomic region in the food capital of the world, every piece of Chasseur is a true original and is made from over 40% recycled material.

Made in France – with PASSION

We believe the skills and processes found there ensure a superior product, no matter how much cheaper we could do it elsewhere. Chasseur's foundry has almost a century's experience in casting and enamelling, and we've worked together for over 25 years.

Highest Quality

Both the foundry and enamelling plant operate under the strictest quality standards, where each piece is inspected at every stage.

Durable

We seal the rims with an enamel primer coat, to greatly increase durability, before adding the coloured top-coat which is both durable and easy to clean.

why choose

Self-basting Lid

Concentric rings on the inside of the lids are designed to channel the steam into drips that baste your food.

Smooth Base

The bases are covered in extremely smooth enamel which means the cookware is suitable for all hob types, including induction.

Environmentally-friendly Manufacture

Each Chasseur item is made from over 40% recycled material; each mould is broken down and re-used; and a state of the art filtration system reduces potential pollution.

Home Delivery Service

Cast iron cookware is heavy! To help our retailers sell more, we offer a home delivery service for any of your customers buying Chasseur. UK delivery costs £7.00 for any number of pieces.

Lifetime Guarantee

All pieces have a lifetime guarantee. That's how confident we are in the manufacturing process and quality control at the foundry.

Enhancements to a Classic Range

Our casserole design incorporates larger, more ergonomic handles for safer lifting, a more rounded, curved interior base for easier stirring, a lid that highlights the brand and its French origin, and finally, a stainless steel lid knob as standard.

Chasseur?

Colours

Just about every item is available in black, the colour chosen by most professional chefs. We also offer a selection of cast iron cookware in chilli red forest and tangerine.

Invicta round casseroles and grillpans

Invicta designs and manufactures traditional cast-iron casseroles and other items to delight those who love authentic, characteristic flavours associated with slow cooking.

This is no longer a secret; cast iron is the ideal material for cooking since it can spread and retain the heat evenly for a long duration of time.

Made in France.

chef's choice

Most of us dream of retiring at 65. Not Dan Friel. When he retired after a 40 year career at the Dupont Corporation at that age, he set up Chef's Choice and spent the next 27 years turning it into one of the world's greatest knife sharpening manufacturers.

Dan died in 2012, aged 92, actively involved even in his last weeks. His legacy lives on and thrives in the collection of world class manual and electric sharpeners that Chef's Choice still produce.

'One of the world's greatest knife sharpening manufacturers'

Chefs Choice Manual knife sharpeners for European, American and Asian Knives

Chef's Choice manual knife sharpeners use 100% diamond abrasives to produce a sharper, long lasting knife edge.

Each stage sharpens both sides of the knife blade simultaneously.

All models are safe for quality knives and are designed to be used by both left-handed and right-handed users.

Additionally, all manual sharpeners are suitable for both European and American knives

Chefs Choice 445 2-Stage Manual Knife Sharpener - Pearl Gray
13844500

Precision angle guides

Two stage sharpener perfect for the kitchen, tackle box, toolbox or glove compartment.

100% diamond abrasives

ChefsChoice

mighty mug

A number of years ago, an American entrepreneur experienced one spill too many while working on his laptop. That moment of frustration sparked the creation of the Mighty Mug - a considered piece of design engineering that redefined everyday drinkware.

Powered by patented Smartgrip® technology, the Mighty Mug resists substantial lateral forces to remain firmly upright on flat surfaces, yet releases instantly when lifted vertically.

The result is a mug that offers exceptional stability without compromising e natural feel of use.

Travel mugs

The world's first 'unspillable' mug powered by 'Smartgrip Technology'. After a big spill ruined an important computer, the innovators of the Mighty Mug set out to create a new type of drinkware that wouldn't fall over when you knocked it.

Unlike other mugs currently on the market, that are spillproof and have skid-free bases, this mug will not fall over in the first place!

Now available in two sizes - 'Go' and 'Solo'

Mighty Mug Solo Travel Mug

17901498 Urban Grey

17901490 Black

17901493 Red

A compact and elegant version of the world's first 'unspillable' mug.

Fits most single serve coffee machines.

Mug won't fall over when you bump into it but lifts straight up with ease.

Double wall construction keeps drinks hot or cold for longer.

BPA free

sistema

‘Beautifully designed, stackable food storage to aid an organised kitchen and food on the go’

Sistema - Italian for “system” - represents a complete ecosystem of well-designed, high-performance food storage, on-the-go solutions and kitchen organisation containers. Designed to simplify everyday life with practical innovation and thoughtful engineering, Sistema products are ideal for meal prep, pantry storage, lunchboxes, drinkware and more.

The 2026 range features a broad suite of stackable, modular food storage solutions, including leak-proof and microwave-ready containers, versatile lunch boxes and durable drink bottles. A number of products now incorporate recycled ocean-bound plastics, reflecting Sistema’s commitment to sustainability and reducing single-use waste.

All containers are BPA and Phthalate-free, food-safe, dishwasher-top-rack, fridge and freezer safe and designed for everyday convenience and organisation. Proudly manufactured with quality materials in New Zealand, Sistema continues to blend functional design with sustainable practice.

sistema® Ocean Bound Plastic

Made in New Zealand

Made using a minimum of 30% ocean bound plastic, helping decrease plastic waste that is at risk of being flooded into the ocean.

Plastic waste is collected from waterways, beaches and shorelines to prevent it from ending up in the ocean. The collected plastics are cleaned and refined via recycling process, then mixed with virgin plastic material.

Available in mixed cartons of Teal Stone and Mountain Blue.

The Dexam Terms and Conditions of Sale are listed in detail in the back of our Price List, but just in case it isn't handy at the moment, here is some of the information you may need:

Orders

Orders may be made online, or sent to us by email. And, of course, there will always be a cheerful team in Midhurst ready to answer your calls and take orders.
Our office hours are 9am–5pm, Monday–Friday.

Carriage paid orders for UK delivery are £200 net and below this a charge of £10.00 applies.

Our website **trade.dexam.co.uk** is full of product information, images and is ready for on-line ordering. If you haven't done so already, just give us a call to set up a trade log-in.

Back orders

If you have asked us to set up your account to accept back orders, then once the product is in stock it will be released for despatch: **either** when you place a new order **or** before you place a new order if your back order reaches an agreed stock value.

Sales office

To contact our Sales office please call 01730 811811, or email to sales@dexam.co.uk

Payment terms

Payment terms are 30 days net. Payment may be made by bank transfer.

Accounts payable

Accounts payable can be contacted by email to sales.ledger@dexam.co.uk
